

# **THE ACCESS FUND**

## **ADOPT-A-CRAG 2006**

### **Meadow Crags Cleanup**

#### **Saturday morning, September 23, 2006**

Adopt-A-Crag Events are being held all over the country with The Access Fund, showing our support for better, cleaner, safer climbing venues.

Schwag, comradeship, a little volunteer work and do-it-yourself lunch are planned. Schwag include Cliff Bars, Nalgene bottles and more!

Bring your Essentials and strong shoes and gloves to use your own rakes, shovels, hoes, clippers and other weapons of mass destruction to tune up the access trails from the River Trail to the climbing areas.

We have the permission of the Bend-Ft.Rock District of the Deschutes National Forest to work on the ten year old glued-in ring bolts positioned widely along the crest of the Meadow Crags. The configuration of these ring bolts does not meet current practice for redundant top rope anchors. We are looking for folks who can help with this project.

Meet at 9AM at the Fee Demo Box, and we will walk together 525 feet down the River Trail to the first climber's access side trail.

The official Adopt-A-Crag Event should conclude by noon giving time for lunch and a little top rope climbing and rappelling practice courtesy of TraditionalMountaineering .org.

Options for the afternoon include a visit to the nearby Deschutes Brewery on Cascades Lakes Highway for beer tasting and a tour of the plant.

Call Bob Speik at 541-385-0445 for information, or go to sponsor
